1. I Love You rug by Knots. Okay, right, we've heard it a thousand times. You can even spell it out on Tibetan wool if you really want to. But we'll just walk all over you anyhow. [www.knotsrugs.co.uk](http://www.knotsrugs.co.uk)  
2. Sparkling birch wine by Sav. Those Swedes just do everything better. Is this what Costco is like in Scandinavia? After we move to Stockholm, we'll be there for samples every day. [www.sav.se](http://www.sav.se)  
3. A.P.C.'s fall/winter men's collection. Everything we need to keep us warm in a blizzard: long underwear, quilted parka, turtleneck, fur-lined boots, and some pasty European dude. [www.apc.fr](http://www.apc.fr)

4. [Siren sculpture by Marc Quinn](#). Everyone pray to the golden waif. Now, what do you want to bet that Rimmel's newest powder eyeshadow is called "Gold Dust"? Just don't get it anywhere near your nose. [www.marcquinn.com](#) 5. [This is \[not\] glass by Jeremy Brown](#). We're glad that someone has finally caught on to our tendency to treat wine glasses like they're soup ladles. [www.jeremybrowndesign.com](#) 6. [Ascot collection for Lladro by Bodo Sperlein](#). We had a dream where we were at a tea party with Salvador Dali. And this is how it started. [www.lladro.com](#) 7. [Dora chair by Giorgetti](#). If you're anything like us, you never know what to do with your long, forked tail while you're sitting at your desk. Do you tuck it behind you? Do you curl it into your lap? Well, problem solved.
